Peyton Phillips

Peyton Phillips

What clubs/projects in 4-H were you involved in?

Throughout my 10 years as a Knippa 4-H club member, I have been involved in clubs/projects like Market Lambs, Breeding Sheep, Market goats, food and nutrition, and dog obedience/dog show.

What are your plans for your future?

Although I do not plan to pursue a career in agriculture, I do plan to stay involved. I will be attending Blinn College in College Station, Texas. Once I earn my associate's degree I will transfer to Texas A&M University, major in/get my master's in Communication Sciences and disorders, and hopefully become a Speech Pathologist.

What did you enjoy the most about 4-H?

The biggest focus in my 10 years of being involved in 4-H is raising and exhibiting sheep and goats. I have loved every minute of it, From simply raising/caring for my sheep/goats, to being in the show ring, showing sheep and goats has become my passion. I am so grateful for all of the friends we have made through showing, they have truly become like family, and I will forever cherish all the blessings this industry has brought me and my family.

What did you learn from 4-H?

Through 4-H, and my projects I have learned the value of hard work, and dedication. I have learned the importance of agriculture, and the ethical upbringing of livestock.

What is your favorite 4-H memory?

I have had so many amazing memories throughout my 10 years of 4-H. 4-H has blessed me in so many ways. I am most thankful to this industry for providing me with something I feel so passionately about, and that has brought me such great joy. Raising these animals has been so incredibly rewarding, and although those goodbyes are always tough, I will always cherish every animal I have had in my barn, and the relationship I have had with them.

What advice would you give to someone just joining 4-H?

I would tell someone who is just joining 4-H to get involved as much as they possibly can. I would obviously most encourage them to look into the livestock showing side of 4-H, as I believe this is one of the greatest things I will ever be a part of, and it has truly made me into the person I am today. Immersing my sister and I in the agriculture industry is one of the greatest things my parents have done for me, and it is truly such a gift. I would also tell them to appreciate every second of it and soak it all in, it goes by way too fast!
